SUMMARY

Results-driven Senior Analyst & BI Developer with 8+ years of experience bridging operations and data analytics in the food industry. Expert at translating complex datasets into KPI-driven Power BI dashboards and guiding enterprise BI strategy to optimize performance. Proven leader in building collaborative teams and streamlining processes to achieve measurable efficiency gains.

SKILLS

Data & BI: Power BI (DAX, RLS), SQL (PL/SQL, T-SQL, PostgreSQL, MySQL), AI Automation, Prompt Engineering, Data Governance

Analysis & Reporting: Data Visualization, SQL Analytics, Data Quality Assurance, A/B Testing, Dashboard Automation

Leadership: Team Management & Mentorship, Cross-Functional Collaboration, Strategic Planning, Data-driven Decision Support

Operations: Process Optimization, Labor Planning, Inventory Management, Continuous Improvement

EXPERIENCE

Power BI Developer

FreshDirect

June 2025 - Present, Bronx, NY

- Directed end-to-end migration of 500+ Power BI datasets from on-premises Oracle to Google Cloud Platform, leveraging AI tools (ChatGPT, Claude, Gemini) to design prompt-engineered workflows and automated coding processes.
- Defined enterprise BI strategy and governance (data models, RLS, performance tuning), establishing standards for accurate, scalable KPI dashboards.
- Partnered with stakeholders to translate business requirements into self-service Power BI reports, enabling quicker decision-making and tighter alignment to operational goals.

Senior Analyst - Operations

FreshDirect

March 2023 - June 2025, Bronx, NY

- Developed and deployed cross-department performance standards (SWRs), boosting overall productivity by 23%.
- Redesigned labor planning processes to align staffing with demand, cutting total labor hours by 9.3% while maintaining service levels.
- Managed and mentored a team of junior analysts, improving data accuracy and visualization practices to support senior leadership decisions.

Data Analyst

FreshDirect

January 2020 - March 2023, Bronx, NY

- Implemented 20+ data warehouse and ETL solutions, automating report generation and significantly enhancing reporting efficiency.
- Analyzed complex operations data using SQL and Power BI to identify key performance gaps, driving an 8.4% increase in productivity.
- Standardized KPIs and dashboards for the operations department, enabling leaders to monitor metrics on labor, fulfillment, and cost in real time.

Operations Supervisor

FreshDirect

September 2017 - December 2020, Brooklyn, NY

- Established data-driven KPIs for outbound operations, resulting in a 20% increase in operational efficiency.
- Designed demand-driven labor allocation models, improving staffing accuracy and boosting labor productivity by 12%.
- Fostered a high-performance team culture through training and data transparency, and led process-improvement initiatives that enhanced workflow effectiveness.

EDUCATION

BACHELOR'S DEGREE IN SOCIOLOGY

CUNY QUEENS COLLEGE • Queens, NY
